Sanden Corporation

Received “Excellent Quality Award” from Nissan Motor Co., Ltd.

~ For the second consecutive year, PX Compressor has achieved the highest quality rating. ~

In July 2025, Sanden Corporation (Head Office: Isesaki, Gunma, Japan; hereinafter “Sanden”) received the Excellent Quality Award from Nissan Motor Co., Ltd. in recognition of its outstanding quality performance for products delivered in Japan during fiscal year 2024.

The product that received the award was the PX Compressor, which achieved the highest “Level 1” rating in Nissan’s rigorous quality evaluation system, the Supplier Score Card (SSC).

Relevant Sites and Teams:
Top: Yattajima Plant
Bottom: SANDEN (THAILAND) Co., Ltd.

The key factors contributing to this top evaluation were as follows:

- **Excellent performance in quality indicators such as the complaint rate from customer production lines**
- **Strong performance in activities related to quality improvement**

Sanden will continue to respond to customer needs globally, maintaining “World-Class Quality” and providing the highest quality products, systems, and services that exceed customer expectations.
