Sanden Corporation Receives “Excellent Website” Award in the Standard Market Category of the FY2025 All-Listed Company Website Quality Ranking

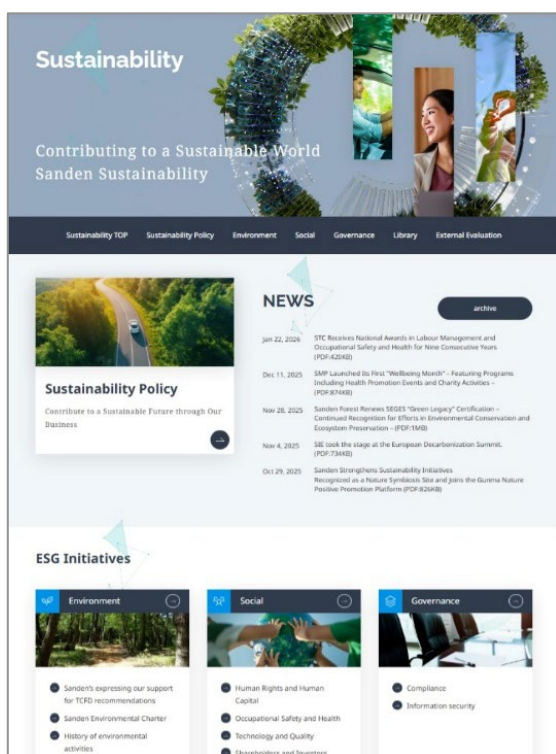

Sanden Corporation (Head Office: Iseaki City, Gunma Prefecture; hereinafter “Sanden”) is pleased to announce that Sanden has been selected as an “Excellent Website” in the Standard Market category of the “FY2025 All-Listed Company Website Quality Ranking” conducted by Nikko Investor Relations Co., Ltd., released in December 2025. This marks Sanden’s fourth recognition, following last year’s award, and represents an upgrade from last year’s “Outstanding Website.”

This ranking evaluates corporate websites of approximately 4,000 listed companies in Japan from the three perspectives of “clarity,” “usability,” and “information volume.” In the Standard Market category, 30 companies, including Sanden, were selected from approximately 1,500 companies as “Excellent Websites.” With the concept of “Helping people get to know Sanden,” Sanden has been continuously enhancing the organization of website information and improving the user interface (UI) to deepen stakeholders’ understanding. As part of this initiative, in 2025, Sanden revamped its sustainability and shareholder/investor information content to improve visibility and ease of access.

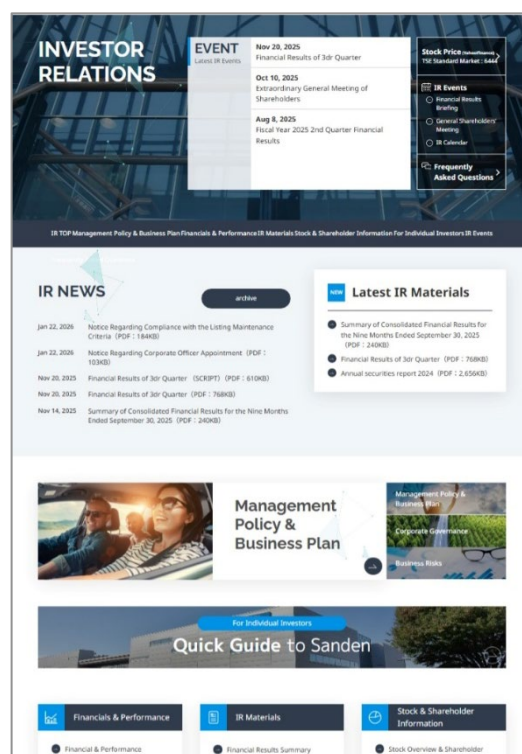

Going forward, Sanden will continue to enhance timely and appropriate disclosure and strengthen the transparency of its website content, ensuring stakeholders have access to the corporate information they need.

- **“All-Listed Company Website Quality Ranking” by Nikko Investor Relations**

This ranking has been conducted annually by Nikko Investor Relations Co., Ltd. since 2003. It evaluates the comprehensiveness of information disclosure on the websites of all listed companies in Japan, to promote awareness and improvement in corporate information disclosure.

The evaluation focuses on the extent to which websites provide essential information for various stakeholders—including shareholders and investors, consumers, business partners, and job seekers—to obtain and understand corporate information.
